**Subject:** Sauk County Meeting on Mandatory Face Coverings

Good morning Wally,

I just wanted to weigh in on the proposed unconstitutional mandatory face coverings in Sauk County discussion.

I'm my humble opinion we should not be in the business of mandating what citizens can wear in public as it would be a slippery slope to someone mandating women wearing hijabs.

I have a medical condition that would cause me personal and irreparable harm to have to wear a face covering out in public. I also have a religious problem with it...the mark of the beast. I would exercise both of those rights to the fullest extent of the court system.

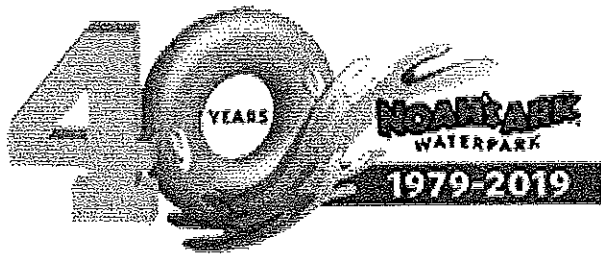

The tourism in the Dells is sitting precariously over the next 8 weeks until labor day. We cannot allow leftist politicians in Madison or Milwaukee dictate to free citizens in the rest of the state. Sauk County, Columbia County and Adams

County have been free areas of the state since May 12<sup>th</sup>. No one has died of the phantom china virus since March. I believe its 4 people in the 3 counties, and all 4 were probably over 80 years old, with previous medical conditions.

The economy would collapse if the Sauk Country Supervisors go ahead with this kind of action. People come here to be a free people. Businesses would never recover.

The Director of Health of Sauk County is also a certified liar. He publicly said he didnt know what businesses in the Dells were doing to prevent the china virus. He lied. We all sent the county our action plans. They were out to the park twice and praised us for the great actions we are taking. He should be fired, or better yet, furlough him until the sales tax revenue has returned to normal.
